December 13, 2000

In 1997, the Alberta Energy and Utilities Board (EUB) implemented their current "Well Licence" application procedures. With the implementation of these procedures, the internal referral – response process between the EUB and Alberta Community Development was discontinued. Previously, when an application for a "Well Licence" was submitted to the EUB, Board staff would check their records to determine whether Alberta Community Development needed to be consulted and if necessary, would refer the application to Alberta Community Development. Alberta Community Development would then review the application to decide whether an Historical Resources Impact Assessment was required. Within the EUB's current well licence application process the applicant becomes responsible for determining whether each well is located on lands that are identified within the *Listing of Significant Historical Sites and Areas*. The *Listing of Significant Historical Sites and Areas* has been recently updated. Starting on January 1, 2001, applicants for "Well Licence" applications must check the 2nd edition of the *Listing of Significant Historical Sites and Areas*.

Historical resources and the EUB's well licencing application process

The historical resources management program for well sites is discussed within a report titled, *Cultural Resource Management and the Energy Industry: New Perspectives and Partnerships*, and the EUB's *Energy Development Application Guide and Schedule Appendix 2, Volume 2 of 2*. The *New Perspectives and Partnerships* report contains many of the recommendations that were made during an industry-government forum that was held in Calgary in April 1996. The implementation of the historical resources management program contains two phases. The first phase involves well sites situated on lands upon which Alberta's most significant historical resources are located and buffer zones adjacent to these lands. These lands are identified within the updated (2nd edition) of the *Listing of Significant Historical Sites and Areas*. Should the well be located on lands that are identified within the *Listing of Significant Historical Sites and Areas* (2nd edition), it requires *Historical Resources Act* clearance. In Section 9 of Schedule 4 of the

Printed on recycled paper

"Well Licence Application" the applicant must check the YES box next to the statement:

> The proposed well site requires Historical Resources Act clearance (Freehold land only).

If the well site does not involve listed lands, the applicant is to check the NO box next to the aforementioned statement.

If the well site does require *Historical Resources Act* clearance the applicant has several options, including: [1] retaining the services of an accredited historical resources consultant to carry out an Historical Resources Impact Assessment; [2] retaining the services of an accredited historical resources consultant to submit an Historical Resources Overview to Alberta Community Development; or [3] providing Alberta Community Development with a copy of the plan of survey and request that Alberta Community Development review the plan to determine if an Historical Resources Impact Assessment is required. Regardless of which option is selected, where possible, the applicant should provide a plan of survey to Dean Wetzel at fax 780-427-3956 or e-mail dean.wetzel@gov.ab.ca. Generally, *Historical Resources Act* clearance will not be provided until after Alberta Community Development has received the plan of survey. However, Alberta Community Development encourages applicants to retain the services of historical resources consultants at the planning stage of their drilling programs. Obviously, at this stage of the planning process, plans of survey may not be available and Alberta Community Development will accept sketch plans and drawings.

The *Listing of Significant Historical Sites and Areas* (2nd edition)

The *Listing of Significant Historical Sites and Areas* (2nd edition) identifies those sections upon which are located the most important historical resources that have been recorded within the Province. This list contains only a small percentage of the total number of historical sites and areas that have been recorded. The 2nd edition of the *Listing of Significant Historical Sites and Areas* is ordered by meridian, then township from south to north, then range from east to west, and then section. Additions to this listing that were not contained in the first edition include those lands that are owned by Alberta Community Development, and those sections that contain recorded historical resources that require the conduct of additional study or avoidance.

Historical Resource Values

The listing identifies the historical resource value (HRV) of approximately 5700 sections. Archaeological resources are the primary historical resource issue on approximately

3100 sections, palaeontological resources are the key historical resources on approximately 1500 sections, with historic period sites being the main concern on a further 1000 sections. The HRV is based upon whether the historical resources have been designated under the *Historical Resources Act*, and at what level the site has been designated. The accompanying table provides a comparison between "Historical Resources Sensitivity" and Alberta Community Development's probable "*Historical Resources Act* Requirements".

How to obtain the *Listing of Significant Historical Sites and Areas* (2nd edition)

Copies of the *Listing of Significant Historical Sites and Areas* (2nd edition) can be obtained at the Queen's Printer Bookstores.

The Second Phase

This phase will involve those wells that are targeted for lands that are considered to possess high potential for the presence of historical resources (e.g. terraces, valley slopes and prairie bluffs along the Red Deer River). In 2001, Alberta Community Development will discuss with stakeholders how the second phase is to be implemented. The intention is to finalize the historical resources management program that is discussed within the *Cultural Resource Management and the Energy Industry: New Perspectives and Partnerships* report.

Should you have any questions or require additional information, do not hesitate to contact the Heritage Resource Management branch at 780-431-2300, or fax 780-427-3956.

HRV	Historical Resource Sensitivity	*Historical Resources Act* Requirements
1	Provincial Historic Resource	An historical resource that has been designated as a Provincial Historic Resource is situated within the section. Pursuant to Section 16(9) of the *Historical Resources Act*, no person shall destroy, disturb, alter, restore or repair any historic resource or land that has been designated, or remove an historic object from a Provincial Historic Resource without the written approval of the Minister of Alberta Community Development. The historical resource is not to be impacted. Surface access may not be granted to designated lands.
	Lands owned by Alberta Community Development	A portion or the entire section is owned by Alberta Community Development. Alberta Community Development's consent must be obtained prior to land entry. Surface access may not be granted.
2	Registered Historic Resource	An historical resource that has been designated as a Registered Historic Resource is situated within the section. Pursuant to Section 15(5) of the *Historical Resources Act*, no person shall destroy, disturb, alter, restore or repair any historic resource or land that has been designated, or remove an historic object from a Registered Historic Resource until the expiration of 90 days from the date that notice of the proposed action is served on the Minister of Alberta Community Development, unless the Minister sooner consents to the proposed action.
3	Significant Historic Resource	A significant historical resource that is a candidate for designation as a Provincial Historic Resource or Registered Historic Resource is situated within the section. Pursuant to Section 33(2) of the *Historical Resources Act*, an Historical Resources Impact Assessment will likely be required to determine the relationship between the proposed well, the significant historical resource and any other recorded and unrecorded historic resources that may be present. The significant historic resource is not to be impacted without the written approval of the Minister of Alberta Community Development. If an Historical Resources Impact Assessment results in the discovery of additional historical resources, the applicant may be ordered to undertake salvage, preservative or protective measures. Surface access may not be granted to specific portions of the section.
4	Buffer zone	Buffer zones are situated adjacent to Provincial Historic Resources, Registered Historic Resources and significant historic resources. Buffer zones may or may not contain historical resources. Pursuant to Section 33(2) of the *Historical Resources Act*, an Historical Resources Impact Assessment will likely be required to determine the relationship between the proposed well, the Provincial Historic Resource, Registered Historic Resource and/or significant historic resource, and to determine if the activity will impact any other recorded and unrecorded historic resources that may be present.
	Previously recorded historical resources that require avoidance and/or the conduct of additional historical resource studies.	Pursuant to Section 33(2) of the *Historical Resources Act*, an Historical Resources Impact Assessment will likely be required to determine the relationship between the proposed well, the previously recorded historical resource and to determine if the activity will impact any other recorded and unrecorded historic resources that may be present. If an Historical Resources Impact Assessment results in the discovery of additional historical resources, the applicant may be ordered to undertake salvage, preservative or protective measures. Surface access may not be granted to specific portions of the section.

Historical Resources

Listing of Significant Historical Sites and Areas (2001) and Related Legislation

The **Listing of Significant Historical Sites and Areas** identifies lands upon which Alberta's most significant historical resources are located.

Starting January 1, 2001, applicants for a "Well License" must check the listing. Should a well be located on lands that are identified within the **Listing of Significant Historical Sites and Areas**, the well requires *Historical Resource Act* clearance.

- ☐ Please send me _____ copies of the **Listing of Significant Historical Sites and Areas @ $15.00 each**
- ☐ **Historical Resources Act** (H-8 RSA 1980 OC to July 1, 1997) _____ copies **@ $4.00 each**
- ☐ **Archaeological Research Permit Regulation** (AR 124/79 OC to AR 88/82) _____ copies **@ $4.00 each**
- ☐ **Dispositions Regulation** (AR 101/98) _____ copies **@ $2.00 each**
- ☐ **Fort Macleod Provincial Historic Area Establishment Regulation** (AR 158/84) _____ copies **@ $1.00 each**
- ☐ **Palaeontological Resources Regulation** (AR 77/82) _____ copies **@ $2.00 each**
